Main title: SPENDWISE

Tagline: Smart Budgeting for Smarter Spending

Description: A Simple Budget & Expense Management Platform

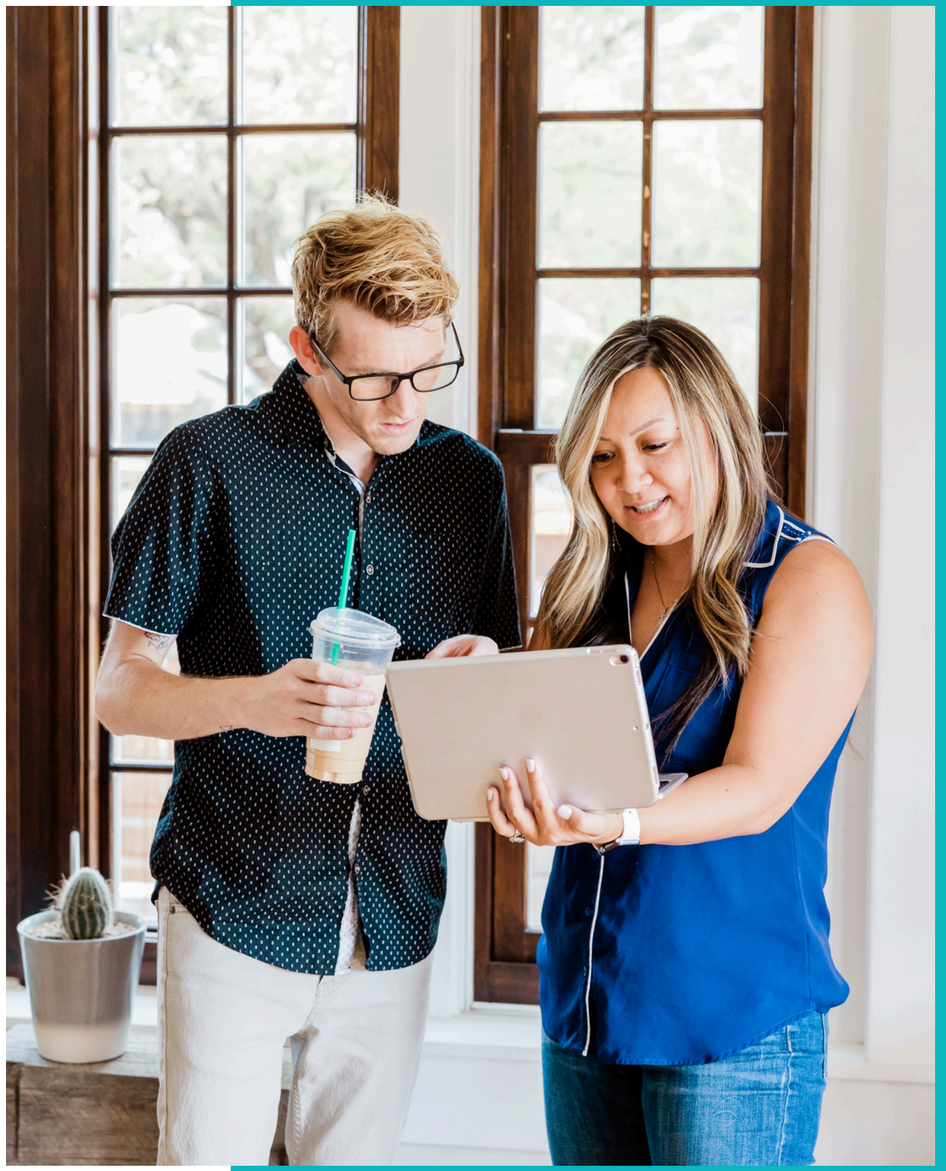

Founder: Lokuruka Simon Locham

The Problem: Managing Money Is Difficult

Many students and young people struggle to manage their daily spending.

- Expenses are often recorded manually or not tracked at all.
- Small purchases can quickly add up without people noticing.
- Many people do not have a simple way to see where their money goes.
- Poor expense tracking can make it difficult to stay within a budget.

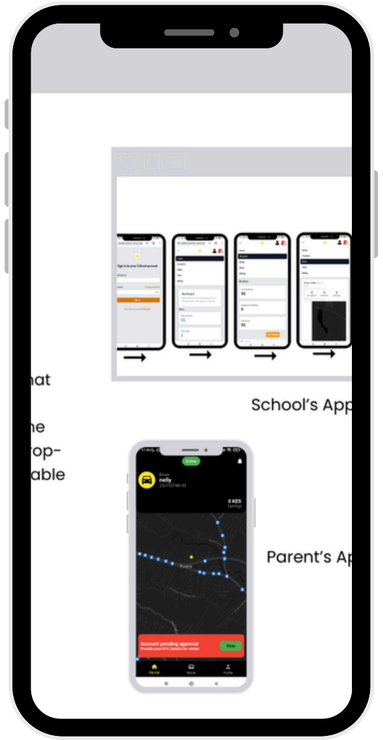

SpendWise: Simple Money Management

- A simple digital platform for recording and tracking expenses.
- Helps users create and manage personal budgets.
- Shows users where their money is being spent.
- Provides a clear summary of spending and remaining budget.
- Helps students and young people make better day-to-day financial decisions.

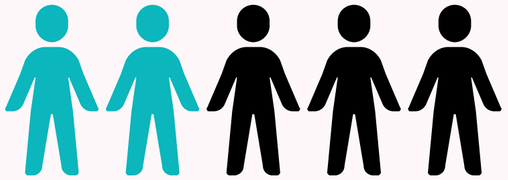

SpendWise — Your Personal Budgeting Companion

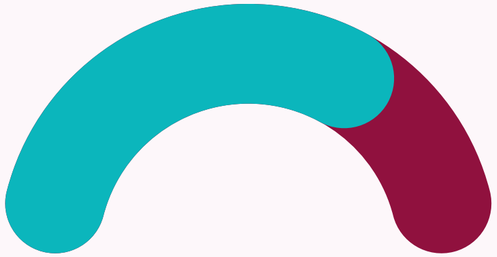

SpendWise is a simple budgeting and expense-tracking platform that helps students and young people record their spending, set budgets, and monitor their finances.

Target Market

Students

Our primary users are college and university students who need simple tools to manage daily spending.

Young Adults

SpendWise also targets young adults who want to track expenses and manage personal budgets.

Growing Digital Users

The platform is designed for people who already use smartphones and digital tools to manage everyday activities.

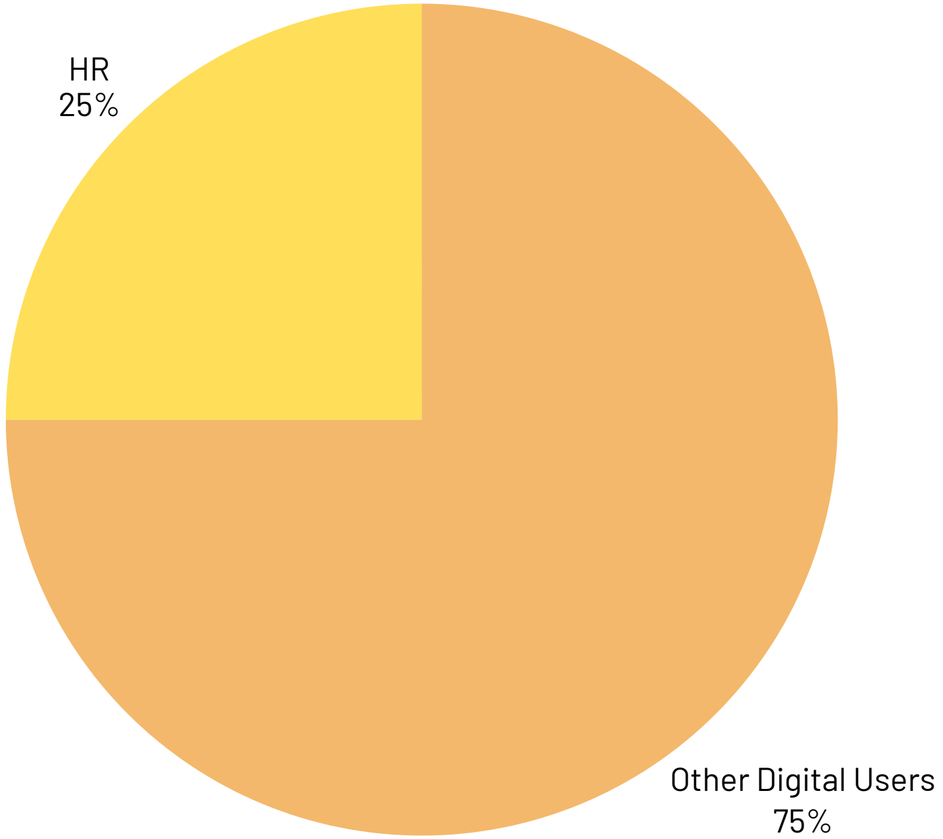

Market Size

SpendWise targets the growing market of smartphone users who need simple tools to manage their personal spending. Kenya has a large digital-user base, creating an opportunity for a mobile budgeting and expense-tracking platform.

TAM: Smartphone users in Kenya

SAM: Smartphone users who actively use digital services and need personal money-management tools

SOM: Students and young adults who can be reached through an initial campus-focused launch

Competitors

Competitors
Popular alternatives include:
• M-PESA – Mainly focused on payments and money transfers.
• Google Sheets / Excel – Can be used to record expenses but requires manual setup and updating.
• Mobile budgeting apps – Offer budgeting features but may be complex for beginners.
Why SpendWise is Different
SpendWise focuses on simplicity. It is designed specifically for students and young adults who want an easy way to record expenses, set budgets, and see where their money goes without complicated features.

Competitive Advantage

What Makes SpendWise Unique?

Simple and Easy to Use

Designed for students and young adults without complicated financial features.

Focused on Everyday Spending

Helps users quickly record small daily expenses and understand their spending habits.

Budget-Focused

Combines expense tracking with personal budgets in one simple platform.

Student-Friendly

Designed around the needs of young people who are learning to manage their money independently.

Project Traction

Month	Activity	Target
September 2026	Develop SpendWise concept	25%
September 2026	Build initial prototype	50%
September 2026	Prepare pitch deck	75%
October 2026	Test prototype and collect feedback	100%

Project Progress Targets

Business Model

Business Model

How Are We Making Money?

SpendWise will use a freemium model. Basic expense tracking and budgeting will be free, while users can pay for premium features such as advanced reports, spending insights, and additional budgeting tools.

What Are Our Profit Margins?

As a digital platform, SpendWise is expected to have relatively low costs per additional user after development. Our long-term goal is to achieve a healthy profit margin through affordable premium subscriptions and a growing user base.

How Will We Reach Our Customers?

1. **Social Media**
2. **Promote SpendWise through TikTok, Instagram, Facebook, and other platforms popular with young people.**
3. **Campus Promotion**
4. **Work with student groups, clubs, and campus communities to introduce SpendWise to students.**
5. **Free Starter Plan**
6. **Offer basic budgeting and expense-tracking features for free to encourage people to try the platform.**
7. **Referrals**
8. **Encourage existing users to invite friends and classmates to use SpendWise.**
9. **User Feedback**
10. **Use feedback from early users to improve the product and attract more customers.**

Social Impact

Social Impact

- **SDG 4 — Quality Education: Helps students develop practical financial-management skills.**
- **SDG 8 — Decent Work and Economic Growth: Encourages responsible financial planning and supports better money-management habits.**
- **SDG 12 — Responsible Consumption and Production: Helps users understand their spending and make more informed purchasing decisions.**
- **Financial Literacy: Makes budgeting and expense tracking easier for young people.**
